Our Family Birth Place offers a level II nursery, dedicated ORs for C-sections, inpatient and ongoing breastfeeding support, classes from pregnancy through the first year, and OHSU teleNICU and NICU transfers if needed. Our suites let patients stay in a single room for labor, delivery and postpartum.

To provide a wider range of birthing options and support our team of certified nurse-midwives, we've added midwifery suites designed for low-intervention births. These include soft lighting, queen beds, furniture to enhance natural birthing, labor tubs and a homelike atmosphere.

503-261-5950 | FAX 503-261-5998

The best outcomes begin in our preoperative medicine clinic. Patients speak with a health care provider by phone or in-person, depending on health history and type of surgery planned. A careful review of each patient's medical history, vitals, medications, allergies and more improves anesthesia safety while answering questions and working through paperwork decreases patient anxiety.

Rehabilitation and Physical Therapy

503-251-6100

Our rehabilitation team is key to helping your patients with their short- and long-term physical and mental health. Our rehab experts help patients with physical therapy, occupational therapy, speech-language rehabilitation, audiology, specialty rehabilitation, inpatient rehabilitation and a variety of specialty programs across five locations throughout the community.

Primary and urgent care

503-261-6929

With primary care clinics located conveniently across the east side of the Portland metro area, Adventist Health Portland primary care connects patients personally with a provider who really knows not just on what's happening today, but what's been going on in patients' lives over time. Two of our clinics include urgent care with walk-in care offered during extended and weekend hours. Our medical home model means we coordinate each patient's whole-person care, from primary medical care to nutritional counseling, diabetes management, mental health care and specialty care.

Our services

Substance use disorder support for inpatients

OHSU's Improving Addiction Care Team (IMPACT) offers hospital-based care for substance use disorders at Adventist Health Portland.

This innovative program brings together physicians, social workers, peer-recovery mentors and community addiction care providers to get to the root causes of addiction right when patients are admitted to the hospital.

The program is a national model for how to address the opioid and heroin addiction crisis. Traditionally, hospitals have treated the acute symptoms of overdose or related infections but had no way to address the underlying causes of the patient's substance abuse disorder.

Rheumatology

503-261-6912 | FAX 503-251-6357

Our rheumatologists believe your patients deserve state-of-the-art, patient-centered care. They appreciate the opportunity to develop the kind of long-term relationships your patients value when managing chronic conditions like arthritis, osteoporosis, gout and autoimmune diseases.

Sleep care

503-261-4475 | FAX 503-261-4476

At the Adventist Health Sleep Clinic and Sleep Lab, we strive to offer patients comprehensive and integrated evaluation, diagnosis and management of their sleep disorders. Sleep testing is done in our American Academy of Sleep Medicine-accredited sleep testing lab with certified sleep technicians.

Surgical services

503-256-1575 | FAX 503-256-1575

Our multidisciplinary surgical teams have earned statewide recognition for their outstanding quality outcomes in inpatient and outpatient surgery. Our operating rooms are equipped with the latest diagnostic and surgical technology, designed with high-level patient care and safety in mind. Our surgeons offer a number of robotic-assisted, minimally invasive surgical options.

Wound healing and Hyperbaric medicine

503-252-4325 | FAX 503-261-6789

We offer a multidisciplinary, whole-patient approach to wound healing. We specialize in the advanced treatment of difficult-to-heal wounds caused by a variety of ailments.
