Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint provision of the Undersea & Hyperbaric Medical Society (UHMS) and the Columbia Wound Care Consortium (CWCC). The UHMS is accredited by the ACCME to provide continuing medical education for physicians.

The information provided at this CME activity is for Continuing Medical Education purposes only. The lecture content, statements or opinions expressed however, do not necessarily represent those of the Undersea and Hyperbaric Medical Society (UHMS), its affiliates or its employees.

Nursing CEU: Will be provided by Wound Care Education Partners (12900 Calais Cr., Palm Beach Gardens, FL. Florida Board of Registered Nursing Provider #550-10881) for up to 7.0 Credit hours.

Designation: The UHMS designates this live activity for a maximum of 7.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure: All faculty members and planners participating in continuing medical education activities sponsored by the CWCC are expected to disclose to the participants any relevant financial relationships with commercial interests. Full disclosure of faculty and planner relevant financial relationships will be made at the activity.

Target Audience: Wound care professionals practicing in the greater Portland / Vancouver metropolitan area.

All topics address professional educational gaps identified through a survey of CWCC members.

Objectives: At the completion of each lecture, each participant should be able to (subject to change):

Overview of wound healing
Wound assessments
Caring for the surgical wound
Wound dressings
Pressure ulcers
Chronic venous insufficiency
Maintaining wound closure
Antibiotic selection in wound care
Peripheral arterial disease
The diabetic foot ulcer
Wound debridement
Case presentations

This is a basic orientation course without certification.

Curriculum
• Overview of wound healing
• Wound assessments
• Caring for the surgical wound
• Wound dressings
• Pressure ulcers
• Chronic venous insufficiency
• Maintaining wound closure
• Antibiotic selection in wound care
• Peripheral arterial disease
• The diabetic foot ulcer
• Wound debridement
• Case presentations

Case presentations:
1. Consider how you might have handled the case differently.
2. State what lessons learned in these cases might change your current practice.
3. List reasons why a wound should be debrided.
4. List reasons why a wound should not be debrided.
5. Identify a diagnostic or treatment challenge that was highlighted by clinical cases that were discussed.
6. State how lessons learned in these cases might change your current practice.
7. Consider how you might have handled the case differently.
