This comprehensive grief training provides the opportunity to develop the skills necessary to interact with the bereaved and to facilitate their grief. Grief facilitator function, grief process, and setting up and running grief support groups are paramount in this training. The Beyond Loss training program is unique in many ways and continues to provide cutting edge material.

As this training pertains to facilitating grief and running grief groups, referrals will be discussed that support the bereaved when their grief exceeds the ability of the group to support them.

Course meets the qualifications for 13 hours of continuing education credits for LMFT's, LCSWs, LPCCs and LEPs as required by the California Board of Behavioral Sciences.

Certificates are provided upon completion of course. Please inform the Program Director if any disability accommodations are needed. For any questions, please contact Program Director, Alice Zulli.

### **Training Objectives:**

1. To implement the eleven comprehensive qualifications a facilitator of grief needs.
2. To apply specific interventions when the bereaved are dealing with personal, traumatic or ambiguous loss.
3. To understand the impact grief has on the family system and individuals within the system.
4. To articulate the different understandings of death and grief youth and adolescents experience by age.
5. To companion the bereaved as they explore their spirituality and grief.
6. To learn about the potential social media can have on death communications, grieving, and prevention of violent death.
