Adventist Health Ukiah Valley
2020 Community Health Plan

The following Implementation Strategy serves as the 2020 – 2022 Community Health Plan for Adventist Health Ukiah Valley and is respectfully submitted to the Office of Statewide Health Planning and Development on May 28, 2021 reporting on 2020 results.
Executive Summary

Introduction & Purpose
Adventist Health Ukiah Valley is pleased to share its Community Health Implementation Strategy. This follows the development of its 2019 Community Health Needs Assessment (CHNA) in accordance with requirements in the Affordable Care Act and IRS 990 Schedule H requirements and approved by the Adventist Health Board of Directors on October 17, 2019.

After a thorough review of the health status in our community through the community health needs assessment (CHNA), we identified areas that we could address using our resources, expertise and community partners. Through these actions and relationships, we aim to empower our community and fulfill our mission of “Living God’s love by inspiring health, wholeness and hope.”

The results of the CHNA guided this creation of this document and aided us in how we could best provide for our community and the vulnerable among us. This Implementation Strategy summarizes the plans for Adventist Health Ukiah Valley to develop and collaborate on community benefit programs that address prioritized health needs identified in its 2019 CHNA. Adventist Health Ukiah Valley has adopted the following priority areas for our community health investments.

Prioritized Health Needs – Planning to Address

- Health Priority #1: Mental Health
- Health Priority #2: Substance Abuse
- Health Priority #3: Workforce Development

Building a healthy community requires multiple stakeholders working together with a common purpose. We invite you to explore how we intend to address health challenges in our community and partner to achieve change. More importantly, we hope you imagine a healthier region and work with us to find solutions across a broad range of sectors to create communities that define the well-being of people.

The purpose of the CHNA was to offer a comprehensive understanding of the health needs in Adventist Health Ukiah Valley’s service area and guide the hospital’s planning efforts to address those needs.
The significant health needs were identified through an analysis of secondary data and community input. These health needs were prioritized according to a set of criteria that included quantitative and qualitative data from multiple sources, woven together to provide a comprehensive picture of the health of county residents. Using MAPP methodology, the community themes and strengths assessment was conducted using a community health survey with a total of 1,324 responses, 34 key informant interviews and 56 key leader surveys. Many community members, key formal and informal leaders, and community partners shared their wisdom, knowledge, experiences, and perceptions about the health of residents and the capacity of the health care system to provide essential public health services.

For further information about the process to identify and prioritize significant health needs, please refer to the Adventist Health Ukiah Valley CHNA report at the following link: https://www.adventisthealth.org/about-us/community-benefit/

Adventist Health Ukiah Valley and Adventist Health

Adventist Health Ukiah Valley is an affiliate of Adventist Health, a faith-based, nonprofit integrated health system serving more than 80 communities on the West Coast and Hawaii.

Vision
Adventist Health will transform the health experience of our communities by improving health, enhancing interactions and making care more accessible.

Mission Statement
Living God’s love by inspiring health, wholeness and hope.

Adventist Health Includes:

- 23 hospitals with more than 3,600 beds
- 290 clinics (hospital-based, rural health and physician clinics)
- 15 home care agencies and eight hospice agencies
- Three retirement centers & one continuing care retirement community
- A workforce of 37,000 including associated, medical staff physicians, allied health professionals and volunteers
We owe much of our heritage and organizational success to the Seventh-day Adventist Church, which has long been a promoter of prevention and whole person care. Inspired by our belief in the loving and healing power of Jesus Christ, we aim to bring physical, mental and spiritual health and healing to our neighbors of all faiths. Every individual, regardless of his/her personal beliefs, is welcome in our facilities. We are also eager to partner with members of all faiths to enhance the health of the communities we serve.

Our commitment to quality health care stems from our heritage, which dates to 1866 when the first Seventh-day Adventist healthcare facility opened in Battle Creek, Michigan. There, dedicated pioneers promoted the “radical” concepts of proper nutrition, exercise and sanitation. Early on, the facility was devoted to prevention as well as healing. They called it a sanitarium, a place where patients—and their families—could learn to be well.

More than a century later, the health care system sponsored by the Seventh-day Adventist Church circles the globe with more than 170 hospitals and more than 500 clinics, nursing homes and dispensaries worldwide. And the same vision to treat the whole person—mind, body and spirit—continues to provide the foundation for our progressive approach to health care.

**Summary of Implementation Strategies**

**Implementation Strategy Design Process**

Stakeholders from the 19 hospital facilities in the Adventist Health System were invited to participate in a Mission Integration Summit on September 26 and 27, 2019. During this two-day-long event, participants were introduced to the 2019 Adventist Health Implementation Strategy Template. After the summit, each hospital was invited to participate in a series of technical assistance calls and consultation sessions with representatives from Adventist Health Community Integration and Conduent Health Communities Institute to further develop and refine their implementation strategy.

**Adventist Health Ukiah Valley Implementation Strategy**

The implementation strategy outlined below summarizes the strategies and activities by Adventist Health Ukiah Valley to directly address the prioritized health needs. They include:

- **Health Need 1: Mental Health**
  - Build Mendocino County’s Trauma Informed Network of Care
- **Health Need 2: Substance Abuse**
  - Safe Rx Coalition
  - Expand access to substance use treatment through Ukiah Street Medicine
• Health Need 3: Workforce Development
  o Collaboration with Mendocino College to create the Physical Therapy Assistant Program
  o Collaboration with Mendocino College to support the RN Program

The Action Plan presented below outlines in detail the individual strategies and activities Adventist Health Ukiah Valley will implement to address the health needs identified through the CHNA process. The following components are outlined in detail in the tables below: 1) actions the hospital intends to take to address the health needs identified in the CHNA, 2) the anticipated impact of these actions as reflected in the Process and Outcomes measures for each activity, 3) the resources the hospital plans to commit to each strategy, and 4) any planned collaboration to support the work outlined.

No hospital can address all the health needs identified in its community. Adventist Health Ukiah Valley is committed to serving the community by adhering to its mission, and using its skills, expertise and resources to provide a range of community benefit programs. This Implementation Strategy does not include specific plan to address the following significant health needs identified in the 2019 CHNA.

**Significant Health Needs – NOT Planning to Address**

- Domestic Abuse – Insufficient funding and staff time to address the need
- Housing and Homelessness – Need is being addressed by others

**COVID 19 Considerations**

The COVID-19 global pandemic has caused extraordinary challenges for Adventist Health hospitals and health care systems across the world including keeping front line workers safe, shortages of protective equipment, limited ICU bed space and developing testing protocols. They have also focused on helping patients and families deal with the isolation needed to stop the spread of the virus, and more recently vaccine roll out efforts.

Adventist Health, like other health care systems, had to pivot its focus to meet the most urgent healthcare needs of its community during the pandemic, as well as reassess the ability to continue with some community health strategies due public health guidelines for social distancing. Adjustments have been made to continue community health improvement efforts as possible, while ensuring the health and safety of those participating. The Strategy Action Plan Grids on the following pages reflect updated activities for each strategy.
In FY20, Adventist Health as a system took the following actions in response to the needs created or exacerbated by COVID-19:

- Adventist Health as a system directed “Community Strength Fund grants” to each hospital to support community partners’ immediate response to COVID-19.
- Adventist Health as a system directed “Community Integration Catalyst” funds to each hospital to support internal new or expanded community wellbeing programming and innovation as an immediate response to COVID-19.
- Began offering more virtual health care visits to keep community members safe and healthy.
- Developed an online symptom tracker to help community members determine if they may have COVID-19 or some other flu type illness and what steps to take.
- Partnered with MaskUp, a collaboration of 100 leading health systems representing thousands of hospitals across the U.S. joining to create messages for the betterment of the communities they serve.
- Was part of a communitywide effort by the local health system to vaccinate eligible community members to help stop the spread of the virus.

Locally, Adventist Health Ukiah Valley took these additional actions:

- Provided personal protective equipment to partner organizations such as Redwood Valley Rancheria, Building Bridges, Mendocino County Youth Project, Project Sanctuary and Redwood Community Services.
- Partnered with Mendocino County Health & Human Services Advocacy & Collaboration Team, Project Sanctuary, Redwood Community Services and First 5 Mendocino to create a bilingual informational flyer to be distributed to community members which included tips and resources numbers for mental health, substance use, domestic and child abuse. Flyers were distributed at grocery stores, food distribution sites, schools and other public locations.
- Facilitated the creation of the COVID-19 Work Group to provide health equity advocacy for the Latino population in Mendocino County which led to Mendocino County funding the Promotores de Salud six-month pilot. This program, operated by Nuestra Alianza de Willits, provided Spanish-speaking community health workers to provide linguistically and culturally appropriate COVID-19 information to Latinos in Ukiah.
**Adventist Health Ukiah Valley Implementation Strategy Action Plan**

**PRIORITIZE HEALTH NEED: MENTAL HEALTH**

**GOAL STATEMENT: BUILD COMMUNITY PARTNERSHIPS TO ADDRESS CRITICAL MENTAL HEALTH NEEDS**

**Mission Alignment:** Well-being of People, Well-being of Places, Equity

**Strategy 1: Collaborate with partners to build the Mendocino County Trauma Informed Network of Care**

</table>

**Source of Data:**
Mental Health Collaborative

**Target Population(s):**
All Mendocino County residents experiencing a mental health crisis

**Adventist Health Resources:** (financial, staff, supplies, in-kind etc.)
- Staff to attend meetings
- Funding/in-kind for the creation of a mental health crisis residential facility
- Information gathering to identify trauma informed assets and gaps in Mendocino County

**Collaboration Partners:** (place a “*” by the lead organization if other than Adventist Health)
- Measure B Committee
- Mendocino County Behavioral Health Advisory Board
- Mental Health Collaborative*
- Childhood Trauma Action Team/Mendocino County Trauma Informed Network of Care

**CBISA Category:** (A - Community Health Improvement; E - Cash and In-Kind; F - Community Building; G - Community Benefit Operations)
- A - Community Health Improvement
- E – Cash and In-Kind

**Strategy Results 2020:** Adventist Health serves on the Mendocino County’s Mental Health Treatment Act Citizens’ Oversight Committee. The committee meets monthly to define how local sales tax will be invest in the construction of a mental health facility and mental health services.

Implementation Strategy 7
Adventist Health worked with partners on the development of a proposal to build the Trauma Informed Network of Care. The work was merged with the Childhood Trauma Action Team, a subcommittee of the Policy Council on Children and Youth.
## PRIORITY HEALTH NEED: SUBSTANCE ABUSE

### GOAL STATEMENT: PROVIDE SOBERING SUPPORT IN A COMMUNITY WITH HIGH SUBSTANCE ABUSE

**Mission Alignment:** (Well-being of People; Well-being of Places; Equity) Well-being of People

**Strategy 2:** Create policies and spaces for safe sobering

<table>

<td>Increase distribution of drug safety materials to 5 new neighborhoods</td>
<td>Due to COVID-19, no materials were distributed in 2020</td>
<td>Decrease in overdose diagnosis in ED</td>
<td></td>
</tr>
<tr>
<td>Activity 2.2</td>
<td>Secure a licensed Alcohol and Other Drugs (AOD) counselor</td>
<td>See narrative below</td>
<td>Extend access to AOD counseling and other treatment services to community members that may not have another access point</td>
<td>10</td>
<td>Increase # of individuals receiving AOD counseling and services</td>
<td></td>
</tr>
</tbody>
</table>

**Source of Data:**
- Safe Rx Mendocino
- AH Safe Haven project lead

**Target Population(s):**
- All community members needing substance abuse information and support
- SB 1152 patients

**Adventist Health Resources:** (financial, staff, supplies, in-kind etc.)
- Staff time to participate in Safe Rx Mendocino Coalition

Implementation Strategy 9
**PRIORITY HEALTH NEED: SUBSTANCE ABUSE**

**Collaboration Partners:** (place a “*” by the lead organization if other than Adventist Health)
- Safe Rx Mendocino
- Redwood Community Services

**CBISA Category:** (A - Community Health Improvement; E - Cash and In-Kind; F - Community Building; G - Community Benefit Operations)
- A – Community Health Improvement
- E – Cash and In-Kind

**Strategy Results 2020:** Adventist Health is an active member of the Safe Rx Mendocino Coalition. In 2020, an interim Safe Haven Project Director was identified. A team of four staff was brought on to serve as wrap around care management for individuals seen through Ukiah Street Medicine, which provides primary care services off-site at Building Bridges, a homeless day center in Ukiah, California. Individuals can now access substance use counseling and services through Ukiah Street Medicine.

It was determined that construction of a new facility for safe sobering is not feasible at this time as additional resources are needed for the completion of a new construction project.
### PRIORITY HEALTH NEED: WORKFORCE DEVELOPMENT

### GOAL STATEMENT: CREATE CAREER EXPLORATION OPPORTUNITIES

**Mission Alignment:** (Well-being of People; Well-being of Places; Equity) Well-being of people

**Strategy 3A:** Work with Ukiah High School to provide summer internships for student

<table>

**Source of Data:**
Ukiah High School, Adventist Health Ukiah Valley departments, Adventist Health Human Performance

**Target Population(s):**
Ukiah High School junior and senior students enrolled in the Scrubs Program

**Adventist Health Resources:** (financial, staff, supplies, in-kind etc.)
Staff from various departments to provide internships

**Collaboration Partners:** (place a “*” by the lead organization if other than Adventist Health)
Ukiah High School*

**CBISA Category:** (A - Community Health Improvement; E - Cash and In-Kind; F - Community Building; G - Community Benefit Operations)
F-Community Building

**Strategy Results 2020:** The Health Exploration Summer Institute (HESI) program was suspended due to the pandemic. In collaboration with Shasta College, Ukiah High School is now able to provide high school students a virtual tour of health care settings as an alternative to the hands-on internship. The HESI program will continue in 2022.
**Priority Health Need: Workforce Development**

**Goal Statement:** Create educational pathways for entry into health care environment

**Mission Alignment:** (Well-being of People; Well-being of Places; Equity) Well-being of people

**Strategy 3B:** Work with Mendocino College to create the Physical Therapy Assistant Program

<table>
<thead>

</tbody>
</table>

**Source of Data:**
Mendocino College, Adventist Health Patient Care Executive

**Target Population(s):**
Local community members

**Adventist Health Resources:** (financial, staff, supplies, in-kind etc.)
Staff to attend the nursing advisory council
$51,750 contribution to Mendocino College

**Collaboration Partners:** (place a “*” by the lead organization if other than Adventist Health)
Mendocino College*

**CBISA Category:** (A - Community Health Improvement; E - Cash and In-Kind; F - Community Building; G - Community Benefit Operations)
A - Community Health Improvement

**Strategy Results 2020:** Adventist Health continued its support of Mendocino College’s RN Program by funding one instructor and providing preceptorships at Adventist Health facilities.
The Adventist Health + Blue Zones Solution

Our desire to improve community well-being grew out of not only our mission at Adventist Health – to live God’s love by inspiring health, wholeness and hope – but also by the sheer need as seen across our system of 23 hospitals. Overwhelmingly, we see diseases of despair including suicide, substance abuse, mental health and chronic illnesses plaguing the communities in which we have a significant presence in. That is why we have focused our work around addressing behavior and the systems keeping the most vulnerable people in cycles of poverty and high utilization.

In an effort to heal these communities, we have strategically invested in our communities by partnering with national leaders in community well-being. We believe the power of community transformation lies in the hands of the community. Our solution for transformation is to create a sustainable model of well-being that measurably impacts the well-being of people, well-being of places and equity.

2020 saw the acquisition of Blue Zones by Adventist Health as the first step toward reaching that goal. By partnering with Blue Zones, we are able to gain ground in shifting the balance from healthcare – treating people once they are ill – to transformative well-being- changing the way communities live, work and play. Blue Zones widens our impact from only reaching our hospitals’ communities in four states to a global mission practice.
