Grateful patients and friends with Hugo Riffel-Dalinger, MD.

Foundation Leaders

“Home is where the heart is”—is a sentiment that has taken on even greater meaning this year. While our community rebuilds, Adventist Health Glendale has continued to offer its collective and immediate support.

Reflecting on the past year, we are pleased to share the accomplishments we have achieved together in our 2024 Annual Report. We welcomed new opportunities and continued to meet our goal of bringing our community world-class healthcare and innovations our medical center makes accessible **close to home**.

Adventist Health Glendale’s Catheterization Lab achieved phenomenal milestones as our Interventional Cardiology specialists successfully performed the first TriClip procedure in Los Angeles County in May 2024, while also achieving the 500th TAVR, 300th WATCHMAN, 200th MitraClip, all in the same year. Adventist Health Glendale is also the first L.A. hospital to treat high-risk coronary artery disease patients with the world’s smallest heart pump, the Impella ECP. We are extremely proud of these incredible achievements.

We presented engaging programs promoting well-being and Interventional Medicine at our groundbreaking Third Annual Advancing Healthcare Symposium featuring our physician specialists in key service lines of Pulmonology, Gastroenterology, and Colorectal care, along with keynote speaker Dan Buettner, founder of the longevity lessons learned from the Blue Zones. We also offered

dynamic and personal presentations from key surgeons in Cardiothoracic, Spinal/Neuro, and Vascular procedures at our What’s Up Doc? event series and featured physician specialists in Interventional GI, Interventional Cardiology, Urogynecology, Gynecologic Oncology, and Breast Surgery at the quarterly Lunch and Learn series, showcasing several of the life-saving procedures keeping our community stronger and healthier, with minimally-invasive robotic-assisted techniques resulting in quicker and improved recovery time.

We introduced the First Annual Posh Pickleball fund & friend-raising tournament which resulted in a celebration of the most popular and loved sport of late. Players of all-ages, and levels, along with the generous support of community partners, together made the event an active and thrilling showcase of health and wellness.

These events are a wonderful example of how we can make an impactful and lasting difference together, and are a wonderful opportunity to recognize the Adventist Health vision of improving health, building relationships, and making care more accessible.

Your gifts and commitment to the faith-based mission of living God’s love by inspiring health, wholeness and hope, we empower Adventist Health Glendale to ensure that our community will continue to have access to outstanding and compassionate healthcare for all, **close to home**.

With Regards,

Elizabeth A. LaBorde

Posh Pickleball

Raises awareness of essential equipment needs while fun for all

On a breezy and bright November morning, the First Annual Posh Pickleball tournament brought the community together while actively raising over \$350,000 towards the purchase of cutting-edge equipment for the medical center including a second advanced mobile imaging system for a wide range of surgical procedures, an additional portable X-ray system, and a new CT scanner. “We are thrilled to host this tournament and bring our community together in support of our medical center,” said Alice Issai, President of the Adventist Health Glendale & Simi Valley Service Area. “Community generosity is vital to securing the latest technological advances and life-saving equipment.” Thanks to the generosity and partnership of our corporate sponsors, including Platinum Sponsors, Pacific BMW, Glendale Career College, the Marsha Fuerst School of Nursing with Mitchell Fuerst, and Fuse Technical Group, amongst many others, the competitive pickleball tournament, was introduced by media sponsor ABC7 LA’s news emcee Denise Dador, with news anchors Phillip Palmer, and Leslie Sykes playing in as well.

Americana at Brand Posh Pickleball Corporate Team

THANKS TO OUR CATH LAB DONORS, WE HAVE ADDED Innovations with the BiPlane Room

Our ongoing Cath Lab Renovation continues to benefit from gifts towards the capital campaign with an increase of more than 600 procedures than the prior year.

As one of the top two busiest Cath Labs in Los Angeles County, we are grateful for the many gifts including the grant partnership of the Henry L. Guenther Foundation. The Cath Lab at Adventist Health Glendale continues to be at the forefront with exceptional results in structural heart procedures such as TAVR, which increased by 11% and Watchman, which grew by 20% in 2024. Thanks to compassionate donors including the Henry L. Guenther Foundation's generous \$300,000 grant in support of the Cath Lab Renovation Project, we are purchasing and implementing upgraded new Siemens Cath Lab machines within our Cath Labs and are steadily progressing on the first of the proposed four Cath Labs.

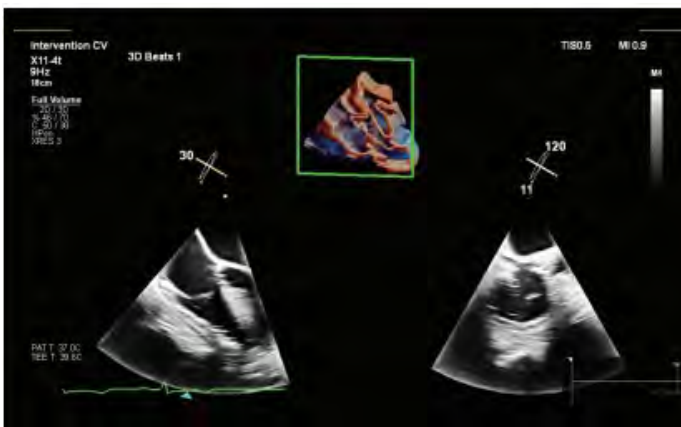

An essential newly purchased piece of lifesaving equipment and software includes the Philips EPIQ CVx

Philips Echo Ultrasound in use.

Ultrasound, an essential component of our recent innovations in the tricuspid TriClip procedures. Offering cutting edge, new AI-based features and advanced automations such as a 3D automated tricuspid valve and color flow quantification tools, it helps achieve greater reproducibility and smarter workflows, while eliminating low-resolution images.

These minimally-invasive procedures with optimal recovery time and lives saved, is priceless.

Tricuspid Valve MPR imaging using X114t transducer and TrueVue Glass

and Upgraded Equipment

Additional Cath Lab Renovation gifts have also contributed to the purchase of a critical lifesaving state-of-the-art imaging system with the Philips Azurion Biplane interventional system featuring 2D and 3D imaging. This advanced technology allows neurologist, Mikayel Grigoryan, MD to diagnose and treat various neurovascular conditions, such as aneurysms, arteriovenous malformations, and stroke, with greater precision and minimal invasiveness. Thanks to the upgraded Bi-plane Room equipment and renovations, Cath Lab Vascular Interventional Radiology procedures have increased 55% with the number of Interventional Radiology/ Vascular and Neuro procedures totaling more than 1344 cases in 2024. These are primarily Emergency Department cases where every second counts and “time lost is brain lost.”

Comprehensive Stroke Center Team, Michelle Jocson, Mikayel Grigoryan, MD, Fatima Siddiqu and Carlos Biaggi.

LA County's first TriClip Procedure team led by Interventional Cardiologists Harry Balian, MD and Amir Solhpour, MD.

Endowment Activities

DE PIETRO ETHICS COMMITTEE ENDOWMENT FUND

We are so grateful for the De Pietro Ethics Committee, set to discuss current issues and cases in bioethics and clinical ethics, including the theological foundation for bioethics in faith-based healthcare. A vital component of healthcare, the Ethics Committee strives to train additional members to provide future consultations by developing the experience and knowledge of newer members, while enhancing skills and information to enable competent, ethical decisions in clinical situations, and discussing how to evaluate compromised autonomy in a full range of medical cases treated here at Adventist Health Glendale. Integrating the various health specialists is of particular importance, as is meeting face-to-face to contemplate particularly challenging consults and compelling clinical ethics cases for discussion. Physicians often seek advice and confirmation of their treatment plans based on work from this committee.

Recent accomplishments of the Committee include implementing resources and information on Advance Care Planning and Advance Directives for Health Care materials available to patients throughout the medical center, and education at area conferences for Associates.

We want to especially recognize Jack N. Yu, MD, Family Medicine, for his leadership as Ethics Committee Chair for the past four years, keeping the Committee active and strong with regular meetings, even remotely during the Pandemic. He welcomes the new Ethics Committee Chair, Aram Srapyan, MD, Internal Medicine who takes over in 2025. With the constantly evolving array of ethical questions and situations our medical center encounters several times a day, our Adventist Health Glendale Ethics Committee thrives due to the support of the Robert De Pietro Endowment Fund for Ethics.

Our compassionate nurses.

SAVEY TUFENKIAN SURVIVORSHIP FUND

In a beautiful tribute to the brave spirit and love of matriarch and community leader, Savey Tufenkian, the Savey Tufenkian Survivorship Program hosted an inspiring waterfall chat in October with Dennis Holmes, MD, breast surgeon and Medical Director of The Sam and Grace Carvajal Comprehensive Breast Center following a community-wide Power of Pink event held at the East Tower terrace. Hearing about the latest innovations in breast cancer treatments from Dr. Holmes, attendees also supported the program's ongoing survivorship activities offered through the Savey Tufenkian Survivorship Program.

Ongoing community classes are available, including a cancer survivor "Strength & Strengthen" seated 1-hour low-impact fitness class, the 2nd and 4th Monday of each month at 1:00 PM. Movement is key to living with and healing cancer. Breath and exercise help build a strong Immune system and can help with depression, low-energy and weight management. The Stretch & Strengthen Class meets across the street at Vallejo Drive Church, 300 Vallejo Dr. follow signs to Church Office.

Also, a popular Healing Art Class meets 1st and 3rd Monday of each month 10:00 AM to Noon. Classes are free and open to any cancer survivor and their caregivers. RSVP at amartist@outlook.com to attend. Many longtime friendships have been made at this restorative class with

Supporters of the Tufenkian Survivorship Fund with Dennis Holmes, MD.

artist Ann Marie Smith, who is happy to select different creative mediums, for example oil painting, collage, or jewelry-making, for the attendees to fulfill their artistic ambitions.

The location is:

Adventist Health Glendale/Cancer Care Center
381 Merrill Ave., Suite A Conference Room
Glendale, CA 91206

Survivorship Healing Art Class with Instructor Ann Marie Smith

THIRD ANNUAL

Advancing Healthcare Symposium

James Tabibian, MD, PhD, Elizabeth LaBorde, Dan Buettner, Alice Issai, Alina Koutnouyan, Armen C. Gregorian, MD, Arin Aboulian, MD.

What an extraordinary afternoon of inspiration and learning, showcasing Adventist Health Glendale's tertiary-level, destination medicine sub-specialties in pulmonology, critical care, gastroenterology and colorectal care, and Blue Zone founder Dan Buettner's insights on longevity and tips to living to 100!

The Advancing Healthcare Symposium offers the community the enriching opportunity to hear first-hand from physician specialists and wellness experts in the beautiful setting of The Huntington Library.

Louise Skosey, Silva Hameline, David Ho, Dan Buettner and Martha Ho.

Ambassador Program

We are grateful for your partnership and commitment to Adventist Health Glendale. Designed to honor those who have chosen to be an Ambassador of the medical center, membership includes personal assistance for themselves and a primary family member while at the hospital.

To be inducted into the Ambassador Program, membership is open to donors giving at the Membership Levels below, towards the designated fund of your choice.

	Annual \$10,000 or more	Lifetime \$100,000 or more	All Access \$500,000 or more
Limited free parking and meals in the Garden Terrace Cafeteria			
Complimentary comfort items during stay			
Flu Shot Clinic Annual visit			
Assistance from team while at AHGL			
Private room, if available			
Upgraded, Hospital Private Suite			
Unlimited free parking			
Unlimited free meals and special meal service (if permitted)			
Patient Navigation/Care Coordination			

To learn more about the recognition benefits, please reach out to the Foundation Team, (818) 409-8055.

AdventistHealthGlendale.org/AmbassadorProgram

Awards and Accolades

achieved by the hardworking caregivers at our medical center.

Rated 5 Stars

Received a 5-Star rating from the Centers for Medicare & Medicaid Services (CMS) for five consecutive years

Only 10% of hospitals nationwide and 12% of the 379 hospitals in California, achieved a 5-Star rating

Hospital Patient Safety Grade A

Received an A Grade for Hospital Safety from The Leapfrog Group for 20 consecutive periods

Only six other California hospitals have achieved as many consecutive "A" ratings

One of only 45 hospitals in the country to earn an "A" grade continuously since 2015

Healthgrades 250 Best Hospitals™

Adventist Health Glendale has been recognized as one of America's 250 Best Hospitals™ for the fourth year in a row by Healthgrades, placing it in the top 5% of 4,500 hospitals in the country and an overall leader in clinical excellence

50 Best Hospitals for Cardiac Surgery Stroke Care Excellence Award™ 2022-2024

Top 10% in the Nation for Overall Pulmonary Services in 2024

Top 10% in the nation for Cardiac Surgery in 2024

Stroke Care Excellence Award™ for 2022-2024

Magnet Designation

Received MAGNET Designation by the American Nurses Credentialing Center. Only the top 9% of medical center in the country achieve this exemplary recognition, and we are the first in Glendale to receive this award!
