

Instructions are based on Apple iOS, but will be similar with Android. You can also use a PC or Mac as well. When using a PC/Mac, you can use Google Chrome as the web browser to video chat with the patient. Make sure the patient family has a webcam available for the video chat to function.

2. If you do not have Teams already installed, you'll get prompted stating the browser cannot open the link. Click Ok to clear the message.

1. Open the email and click on the "Join Microsoft Teams Meeting" link.

3. Click on the AppStore to download Teams. This is a free application.

Note: Repeat Step 1 to open the email and click on "Join Microsoft Teams Meeting" link.

4. Start the download for Microsoft Teams.

5. Choose "Join as a guest" to enter the meeting.

6. Enter your name and click on, "Join meeting."
