Patient Visiting guidelines

New Guidelines effective
Thursday, September 22, 2022

Visiting

8 a.m. to 8 p.m.

Visitors must wear a mask and will be screened for COVID 19 symptoms upon entrance.

Hospital waiting rooms remain closed. Visitors must remain in patient room. Visitors may purchase to go items from the Cafe.

Visitors must be 16 years or older.

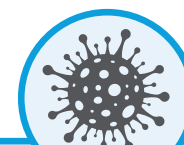

Exceptions to the visiting guidelines include pediatric patients, those with a disability or cognitive impairment and end-of-life. Additional exceptions may be made on a case-by-case basis.

Inpatients

- Two visitors from the same household at a time.
- Multiple people may visit on the same day.

COVID-19 and Infectious Isolation Patients

- Inpatients — Video visits only
- Family Birthing Center – One support person for labor and delivery only

Surgery or Procedure Patients

- One support person may accompany the patient
- **Support person must wait off-site while surgery is in progress**
- Limited visiting by one support person during recovery due to space constraints

Family Birthing Center Patients

- Postpartum and NICU — Two support people during visiting hours; One person may stay overnight
- Labor — Two support people
- OB Surgery and Recovery — One support person
- Outpatients (OB Checks) — One support person
- NST clinic — No visitors due to space constraints

Emergency Room Patients

- One support person, provided physical space or condition of patient allows
- If asked to leave for space or patient condition reasons, the support person **must wait off-site**

Outpatient Care
